What's Included

Ordr University Basic Service includes one year of access to 30+ hours of basic-level video training on the OrdrAI Protect and OrdrAI CAASM+ products for up to 100 learners. Unlimited attempts for each user to earn the Ordr Foundations Micro-Credential. These 100% digital learning experiences are delivered on your schedule and your chosen platform. The training is hosted in the Ordr University portal where learners can see and track progress through the content titles.

Target Audience

All entry-level users of OrdrAI Protect including Healthcare Technology Managers, Security Engineers, and Network Engineers.

Prerequisites

These courses are introductory and have no formal prerequisites, however a valid support agreement is required to access Ordr University.

Ordr Education Services

Courses from Ordr deliver the foundation of knowledge and expertise necessary to effectively utilize the Ordr solution and ensure your connected assets are secure. Our accreditation and certification options establish a benchmark for personnel, providing additional assurance that they are prepared to operate and manage OrdrAI Protect and OrdrAI CAASM+.
