EDU-101: Foundations

The Ordr EDU-101: Foundations course is 16 hours of instructor-led training that will help you:

- Use OrdrAI Protect to See, Know, and Secure your network
- Integrate solution components as part of your technology stack
- Analyze devices and traffic flows to resolve various real-life scenarios
- Solve advanced, scenario-based challenges

Course Modules

0: Introductions

1: Solution Architecture

2: Dashboard and Navigation

3: RBAC, Reports, and YAML

4: Networking, Services, and Integrations

5: Device Management

6: Device Profiles

7: Policy Profiles

8: Flow Analytics

9: Security

Scope

- **Type:** Instructor-Led Training
- **Level:** Beginner
- **Duration:** 16 Hours (2-3 days)
- **Class Size:** Max. 10 Learners
- **Format:** Lecture and Hands-On Labs
- **Revision:** OrdrAI Protect 8.2 (R2)

Objectives

Successful completion of this 16-hour, instructor-led course will enhance the participant's understanding of how to navigate, configure, and administer OrdrAI Protect and associated sensors for deep packet inspection. Participants will perform hands-on administrative, configuration, reporting and research tasks utilizing UI capabilities. Completion of this class will help participants develop an in-depth knowledge of how to visualize, interpret, and secure traffic and devices in a production network.

Target Audience

All entry-level to intermediate users of OrdrAI Protect including Healthcare Technology Managers, Security Engineers, and Network Engineers.

Prerequisites

This course is the starting point for learners beginning their journey with OrdrAI Protect. It covers foundational navigation, orientation, and use of the product and is a recommended prerequisite to other more advanced courses in Ordr University.

Ordr Education Services

Courses from Ordr deliver the foundation of knowledge and expertise necessary to effectively manage the Ordr-enabled environment and ensure your connected assets are secure. Our accreditation and certification options establish a benchmark for personnel, providing additional assurance that they are prepared to operate and manage utilizing the added visibility provided by the OrdrAI Protect UI.
