

EDU-201: HTM Specialist

The Ordr EDU-201: HTM Specialist course is 8 hours of instructor-led training that will help you:

- Use OrdrAI Protect HTM Dashboard to understand your environment
- Understand asset and device attributes, current state, utilization
- Analyze and interpret MDS2 and SBOM documentation
- Solve advanced, scenario-based HTM-related device security challenges

Course Modules

- 0: Introductions
- 1: HTM Dashboard Views
- 2: HTM Device Management
- 3: Settings and Administration
- 4: Advanced Security Functions for HTM

Scope

- **Type:** Instructor-Led Training
- **Level:** Intermediate
- **Duration:** 8 Hours (1-2 days)
- **Class Size:** Max. 10 Learners
- **Format:** Lecture and Hands-On Labs
- **Revision:** Ordr Protect 8.2 (R2)

Objectives

Designed for the specific needs of Healthcare Technology Managers (HTM), this 8-hour course focuses on IoT device inventory, utilization, and vulnerability management. It gives the HTM professional the skills needed to take full advantage of the Ordr “Clinical Defender” UI. Completion of this class will help participants understand the range of OrdrAI Protect features that have been optimized for healthcare environments.

Target Audience

All entry-level to intermediate users of the OrdrAI Protect solution responsible for Healthcare Technology Management, Clinical Engineering and Biomedical Engineering.

Prerequisites

This course builds on the content of Ordr’s EDU-101: Foundations and as such completion of the online or instructor-led version of the Foundations course is highly recommended.

Ordr Education Services

Courses from Ordr deliver the foundation of knowledge and expertise necessary to effectively manage the Ordr-enabled environment and ensure your business is secure from dangerous threats. Our accreditation and certification options establish a benchmark for personnel, providing additional assurance that they are prepared to operate and manage utilizing the added visibility provided by the Ordr UI.
