

**SOLUTION BRIEF**

# Ordr Managed Professional Services

## Augment Your Teams With Continuous Security and Expertise

Ordr Managed Services offer a comprehensive solution designed to ensure continuous, proactive security management and optimization for businesses leveraging the OrdrAI Asset Intelligence Platform.

With Ordr Managed Services you're backed 24/7 by a team of cybersecurity experts dedicated to safeguarding your operations and enhancing your security infrastructure. We support you from deployment through continuous monitoring and refinement, ensuring your assets are protected.

### KEY BENEFITS

#### **24/7 COMPREHENSIVE SECURITY MANAGEMENT**

Benefit from a fully managed service that effortlessly addresses both internal and external threats. Our services are designed to evolve with your needs, providing continuous optimization and recommendations to ensure all assets are secure and protected.

#### **EXPERTISE AND STRATEGIC INSIGHT FOR CONTINUOUS IMPROVEMENT**

Gain access to Ordr's vast experience and specialized knowledge to navigate complex security challenges and focus on fixing critical risks and exposures. Our experts will leverage insights from Ordr's platform to identify external threats and improve security posture.

#### **REDUCE OPERATIONAL BURDEN AND SAVE TIME**

Simplify your deployment and remove the burden of ongoing asset management by augmenting your team with our cyber experts.

## SERVICE PACKAGE TIERS

Ordr offers a range of managed service packages designed to augment your team, reducing the need for ongoing management and expertise. These packages are built to evolve with your team’s needs and the changing attack surface.

### BENEFITS FOR ALL PACKAGES

- Initial Setup and Deployment
- Weekly Status Meetings
- Monthly Vulnerability Trend Analysis
- Quarterly Health Checks
- Quarterly Amendments to Device Classifications

## B.A.S.T.I.O.N. (Barrier Against Security Threats: Integrated Operational Network)

BASTION is available for OrdrAI CAASM+ and OrdrAI Protect with a focus on continuous protection. Ordr analysts use their expertise in securing complex environments to ensure that operations remain resilient against evolving threats.

## T.R.A.C.E. (Targeted Response Against Cyber Enemies)

TRACE, available exclusively for OrdrAI Protect, takes a proactive approach to cybersecurity. Going beyond environment management, Ordr experts hunting for and identifying potential security threats before they can affect your operations.
